I have been participating in the cooperator meetings. It's been a several months since I've seen a draft of the alternatives tables. One person to talk to about getting the latest draft of the alternatives would be Lisa Solberg with the BLM in Pinedale. I think her number is 307-367-5354. Hope this helps.

Sage Grouse & BLM LRMP Revision

It looks like the Forest Service may be pulled into the realm of LRMP revision for sage grouse - at what stage is the development of related sage grouse conservation measures? Would it be possible for me to obtain a draft copy?
