Hi, At our 12/20/12 meeting we set up two teams - Cam is organizing the first one - Improving the model.

The second group was to work on recommendations/development of a manual on how the USGS model will be incorporated into each land management agency's decision making process. We were put on hold and now we have been asked to begin our conversation.

Please fill out the doodle poll below. We will have conferencing capability.

**LYNN** - Mark mentioned that a 'Jim' from USFWS should be part of this conversation - Do you know who that is?
