Thanks, very different than what Mike said this morning. Can you please have someone send me the written comments?

Matt,

I called Mike on same issue earlier. Lander "brief" was ok, very general. We just finished looking at buffalo, big horn basin, and 9-plan "briefs" last week. Pat, Alex, and I made some constructive comments on them and think they they would be a better starting place than the lander one.

Hi, Mark. Just talked with Noreen and she is speaking with Dan early tomorrow morning about GrSG issues. One topic on the agenda involves the BLM "Conservation in Brief" template that will preface every pending final plan. As we understand it, BLM has used the Lander plan to pilot the template. If I recall correctly, you earlier reviewed

the template (and perhaps the actual Lander language) and were comfortable with it. Do you have any additional feedback or further thoughts you want to provide in advance of tomorrow's call with Dan, including are you still good with this products, whether it can be improved and how, etc.? I know you are tied up in training but hopefully this is a quick item. Thanks in advance. MK
