Subject: Upcoming Review of BLM Sage-Grouse Administrative Draft EIS - Schedule

All,

In relation to the upcoming review of the Sage-Grouse ❖ administrative ❖ Draft EIS (June 10-24), I recognize the challenges the State of Utah, Forest Service, and Fish and Wildlife Service potentially face. Each of your organizations potentially have a large number of reviewers. Given that the BLM will ask that comments from your organizations be compiled into one table and duplicate comments removed (consolidation), the actual review time available for your specialists could be even shorter than that available to other cooperating agencies. As such, while the review time for your individual reviewers will remain June 10-24, we are providing each of your organizations an extra 4 days to review, compile and consolidate comments into one comment table (for your organization). As a result, all comments from your organizations are due to the BLM on or before June 28th.

If you have any questions, please let me know.
