FYI: JST asked for recommendations on their draft avian monitoring plan. Kevin Kilbride, Vanessa Loverti, and I met with them on three occasions and verbally recommended a scientifically defensible approach to gathering data regarding disturbance to migratory birds. At the third meeting they provided a draft plan that did not incorporate our recommended approach and again asked for input. Kevin, Vanessa, and I drafted a consolidated recommendation (re-stating the verbally provided recommendations) and emailed it yesterday.

I also talked to Olympic Peninsula Audubon Society today and it sounds like they had several of the same concerns with the draft monitoring plan that we highlighted.

Just wanted to keep you in the loop.

-jennifer
