Subject: Aquaculture Lease on Refuge Deeded Tidelands
Date: Friday, May 15, 2015 3:55:47 PM

Brad,

I have been contacted by Jamestown Tribe in regards to future use of the 50 acre tideland lease on what I understand to be Refuge deeded tidelands in Dungeness Bay. I am sifting through the files but am having a hard time finding records associated with this lease. Do you have any records that discuss the current state of this lease? Is it still active?

Thanks,
Jennifer
