Hello Jennifer,

Here are the shape files from the second half of the survey. I am hoping we can get a final map together in the next week. Thank you

Ralph

Thanks for the photos from Dungeness Bay. It was fun! Here are the shapefiles of the gps points taken that day. Let me know if you need anything else.

Hi Pam, this looks good, I am excited to see how the rest of the data comes together.

If you send me the shape files I will forward them to Jennifer with an email.

Thank you!

Hi Ralph,

I've attached a map showing the points taken last Tuesday and the ones from June 8. Do you want me to email the shapefiles to the Fish & Wildlife Service?

to Ralph

Thanks for sending the points along. Lorenz was asking me about these yesterday (I've been out with the flu all week). I'll forward them to him. How quickly we can get a map together will depend on Lorenz' schedule and the schedules of our GIS folks in the Regional Office.....that being said....we will work on it, but no promises. With Sue out with a broken foot we are all doing double duty to fill the gaps.

I hope canoe journeys are going well.

Thanks again,  
Jennifer
