Importance: High

Hi Sue and company,
below is a table with a couple sets of coordinates...the X,Y are
NAD_1983_2011_StatePlane_Washington_North_FIPS_4601_Ft_US and the Long/Lat are
GCS NAD83 DD.
Let me know if you need anything else!

Say, is there any way you can give us accurate coordinates for the corners of that shape file?
I imported into google earth and pulled points from there but Jennifer wants to make sure
we're using very accurate data. Lat/Long, Nad 83, decimal degrees would be fantastic!

I'll be out of the office all week next week, so if you could respond to all of us, someone will
get it...

Thanks!
Sue

Hi Sue,
attached is the shapefile you requested...let us know if you need anything else!

Hey back at ya Sue!

Kendra and I are on it like a hobo on a ham sandwich (as Ben Harrison would say)!
You'll have it real soon

Hi there Dave,

How the heck areya?

I just saw a pdf that you sent to Jennifer for the oyster lease area on Dungeness NWR, but what we really need is a shape file. Can you send one as soon as you can? We're going in to a high level meeting tomorrow and will need to present wildlife use info for that as well as subsequent meetings and the compatibility determination. If you don't have a shp, I think I could convert to a kmz, but right now all we have is multiple pdfs. Would be better to have the info neat and consolidated when presenting to the Govs. Office and/or state reps, I'm thinkin...

Thanks much n Hi to Margarette!
Sue
