Agree that if the request was submitted after September 11, 2020 then we would have issued the WQC under the EPA rule and no amendments could happen.

Thanks  
Loree'

Hi folks, my apologies – Loree' Randall sent me the original 401 certification request that was submitted in 2020 prior to the new 401 rule going into effect. I rescind my two prior emails stating that amendments are not allowed. Though that might be our EPA HQs interpretation about the current rule / regulations that apply, that is not my view. If the request had been submitted after September 11, 2020 then no amendments or modifications would be allowed. Please accept my apologies for any concerns.

Best,  
Linda Storm

Hi Linda,

The application for this project was received prior to the EPA Rule going into effect, so the 401 was issued under the old rule.

Lori

Hey there folks,

Unfortunately under the new Clean Water Act Section 401 rule amendments or modifications to 401 certifications are not authorized. Maybe because this is an administrative order that the State issued there is some legal leeway that could allow that. But sadly the 2020 401 rule is clear no modifications (which is a beurocratic nightmare I know).
