Hi Dave,
Sending along this info. How are on-bottom oysters harvested? Are there options other than dredging?
Judi White

Original Public Notice Date: December 3, 2018
Erratum Date: April 30, 2020

SUBJECT: Revision to the Public Notice for a Department of the Army Permit, Jamestown S'Klallam Tribe; NWS-2007-1213

The Jamestown S'Klallam Tribe has proposed to commercially cultivate 34 acres of Pacific oysters in Dungeness Bay on tidelands within Dungeness National Wildlife Refuge, near Sequim, Clallam County, Washington. This erratum revises the work description on the original Public Notice dated December 3, 2018. The Jamestown S'Klallam Tribe has proposed to revise their cultivation methods to 5 acres of on-bottom bag culture with the remaining 29 acres using an on-bottom loose culture method.

The U.S. Army Corps of Engineers Seattle District has posted the above-referenced public notice for your review and comment at www.nws.usace.army.mil, under the heading "Open Public Comment Period" select "Regulatory Public Notices."

If you do not have internet access and would like to request a paper copy of the notice, please contact Pamela Sanguinetti at (206) 764-6904.
