I am not sure where Jamestown S'Klallam Tribe is in the process (e.g., still drafting, final product, submitted to Corps). I anticipate the Corps will ask FWS for official comments on the draft avian monitoring plan once it is submitted.

Hi Jennifer - We have not provided follow up written comments to the Tribe yet. I have to run them through my Center and unfortunately I have not completed that process yet. Do you think this will still be useful to provide these?

Best

Susan,

Did your office provide a written recommendation or assistance to Jamestown S'Klallam Tribe regarding disturbance monitoring in Dungeness Bay, following our joint discussion last month? If so, could you please share a copy?

Hope your field work is going well.
