Good catch. The wording in this letter is much clearer.

Are we also sending a letter to the County?

Hope you are having a good Monday.

Here's my version - I shortened it and took out some of the more problematic statements. Thoughts?

We're going to do a little more recrafting on this letter on Monday. We need to change the sentence on supporting the tribes cultural and economic need to grow oysters, it sounds like were giving permission. The letter has to be shorter too. This is an outcome of a discussion Kevin had with Mary on the "phone call" earlier this week.

Hello, I made a few tweaks. With the "standards" that the Service has for correspondence, I can't make any adjustments to font size or spacing or anything that would get the text on one page.

Here is a minor question regarding this part of a sentence:

Operations, Site-Specific Stewardship Measures and Monitoring Plans.

Is this list two things or three? If it's two, it needs another "and" and if it's three, it needs another comma. I left it highlighted in the memo in case you want to change it.

I deleted the date because, as far as I know, the RD's office still stamps the date it when it is signed.

Thank you,  
Nicole

Here is a clean copy and a copy with all of the track changes (Kevin's and mine). The clean copy falls at a weird ending point. It would be great if Nicole could work her magic and get it to fit on one page.

Kevin made some really great suggestions. I did make a couple of changes to his recommended verbiage. Let me know if he needs more discussion on the rationale for changes.

Thanks to you all for helping us get this letter together.

Jennifer,

are you okay with the edits?

Nicole,

can you please work your editorial magic on this once we hear from Jennifer.

Thank you
