At the last public hearing, it sounded like they were re-evaluating their decision to provide a DNS given that ACE stated that their would be greater than minimal effects from the project. Hopefully an EA will provide additional information about project specifics that were not included in the application and allow for a more thorough assessment of impacts.

FYI. Jamestown S'Klallam Tribe has asked for a six month Continuance of the County's hearing on their application for a Shoreline Substantial Development Permit and a Shoreline Conditional Use Permit so they can complete a site specific Environmental Assessment.
