Just one suggested change (page 11)

This proposed use is in support of a commercial operation and unlike the public uses described above, would require year-round access to Refuge Use Easement deeded tidelands. No beneficial effects that would contribute to the achievement of Refuge purposes, or the National Wildlife Refuge System mission, were identified from allowing access as described.

Here's the most recent version of the CD. Edits on pg. 9, 11, and 17.

Hope the rest of your day is delightful.
