Hi Robyn,

I hope this finds you well. I'm excited to say that I'm in the running for a GS12 supervisory biologist position at the Buenos Aires NWR in southern AZ. My partner Dave and I rode the Harley down from Klamath Falls to check it out in person and meet with refuge management. We spent 2 hours with them and touring the refuge. The acting Manager said it made an impression that we did that and I got the impression that I have a good chance at being selected. I hope that your approval to use you as a reference is still good, as they may be calling you soon. I'm very excited about this opportunity and have my fingers crossed! In case it might be helpful, I'm attaching my resume.

Thank you in advance,

Jeanne
