BETWEEN  
UNITED STATES DEPARTMENT OF THE INTERIOR  
FISH AND WILDLIFE SERVICE  
COLORADO ECOLOGICAL SERVICES FIELD OFFICE  
AND  
JACKSON COUNTY, COLORADO  
FOR  
DEVELOPMENT OF THE ENVIRONMENTAL IMPACT STATEMENT ASSOCIATED  
WITH  
THE ESTABLISHMENT OF AN EXPERIMENTAL POPULATION OF NORTHERN  
GRAY WOLVES IN COLORADO**

**I. Introduction**

This Memorandum of Understanding ("MOU") is between the United States Department of the Interior, Fish and Wildlife Service, Colorado Ecological Services Field Office ("FWS"), and Jackson County, Colorado, hereinafter referred to as the Jackson County, jointly referred to as the "Parties." The FWS is the lead federal agency for the Environmental Impact Statement (EIS) analyzing the effects of a proposed rule establishing an experimental population of northern gray wolves in Colorado pursuant to Section 10 of the Endangered Species Act (ESA). The FWS acknowledges that the Cooperator has jurisdiction by law and/or special expertise applicable to the EIS effort, as defined at 40 C.F.R. §§ 1508.15 and 1508.26. This MOU describes responsibilities and procedures agreed to by the Parties.

The cooperating agency relationship established through this MOU shall be governed by all applicable statutes, regulations, and policies, including the Council on Environmental Quality's National Environmental Policy Act (NEPA) regulations (in particular, 40 C.F.R. §§ 1501.6 and 1508.5), the FWS's planning regulations, and the Department of the Interior Manual (516 DM 2.5).

**II. Purpose(s)**

The purposes of this MOU are:

- A. To designate Jackson County as a Cooperating Agency in the proposed rule development and EIS processes.
- B. To provide a framework for cooperation and coordination between the FWS and the Cooperator that will ensure successful completion of the EIS in a timely, efficient, and thorough manner.
- C. To recognize that the FWS is the lead agency with responsibility for the completion of the EIS and the Record of Decision (ROD).
- D. To describe the respective responsibilities, jurisdictional authority, and expertise of each of the Parties in the planning process.

### **III. Background**

The FWS, with the assistance of a third-party contractor, is writing an EIS to analyze the effects of a proposed rule designating an experimental population of northern gray wolves in western Colorado. This effort was initiated at the request of Colorado Parks and Wildlife (CPW), which is mandated by state statute to develop a plan to reintroduce northern gray wolves to lands in western Colorado by December 31, 2023. The proposed experimental population designation will provide CPW enhanced management flexibility for northern gray wolves in Colorado. The intent of the EIS is to provide NEPA documentation and support for the Record of Decision (ROD), if applicable.

Consistent with the National Environmental Policy Act of 1969, 42 U.S.C. § 4321 et. seq., as amended, and pursuant to the Code of Federal Regulations (40 C.F.R. §§ 1501.6 and 1508.5), State governments may participate in the development of environmental documentation for projects in which or where they have jurisdiction by law or special expertise.

Nothing in this MOU alters or supersedes the authorities and responsibilities of any of the Parties on any matter under their respective jurisdictions.

### **IV. Authorities**

The authorities of the FWS to enter into and engage in the activities described within this MOU include, but are not limited to:

- A. National Environmental Policy Act of 1969 (42 U.S.C. § 4321 et seq.).

- 3. To the fullest extent practicable, after consideration of the effect such releases may have on the FWS's ability to withhold this information from other parties under the Freedom of Information Act (FOIA), or other statutes, the FWS will provide the Cooperator with copies of documents underlying the EIS relevant to

the Cooperator's responsibilities, including technical reports, data, analyses, comments received, working drafts related to environmental reviews, and draft and final EIS.
