Thanks Adam, appreciate your getting back to me. Looking forward to the discussion on Monday. Those of us in the Southwest had a much more active role in the 10(j) development. Again, thanks for the response. Jim

Hi Jim,

Thanks for reaching out and your work on the MOU. Unfortunately we can't share the draft final 10j rule as it is going through review internally, and is a deliberative, pre-decisional document.

The draft FEIS that was provided to you has a discussion on the MX wolf and suggest using this document if it maybe helpful.

Lets discuss on Monday as well when we have our meeting that will also include discussing the draft 10(a)(1)(A) language.

Regards,

Adam

Good evening Adam, I sent Liisa an email about the 10(j) language and saw that she is on leave for a bit. Good for her. The states and the FWS are working on a MOU reference Mexican wolf protections and the role of the MW team in avoiding integration between MW and northern wolves, which has been and still is a prime concern for MW management. The MW is a unique genome that requires via ESA and other statutes that integration does not occur. The MW team is working on a MOU on management of the two species (subspecies) and it would be very helpful to this process to be able to take a look at the 10(j) language. Since you are filling in for Liisa do you have an idea of when the language will be made available to your state and R2 partners? Thanks Jim
