Aran, We also want to ensure that you are aware of what will be required of the Tribe to get authorization to conduct management of gray wolves under the section 10(j) rule. For your information, the requirements are essentially the same as those contained in the Northern Rocky Mountains section 10(j) rule, or the Mexican wolf 10(j) rule. You can respond to your awareness of this information at the same time you respond to my previous email. Thank you.

Respectfully,

Kurt Broderdorp
