FYI, I submitted final proposal. Mike reviewed an earlier draft. This is associated with an oil spill damage assessment and restoration plan from a spill off the Oregon coast. If awarded, funds would go towards the Farallon Restoration Project.

Thanks to Joy for reviewing a draft. Her comments really helped me see where I hadn't been very clear; hopefully it's in better shape now.

Subject: Revised Leach's Storm-Petrel restoration proposal

Hi Mike,
Sorry this took so long, but attached is revised Farallon Leach's storm-petrel restoration proposal. I attached both Word and PDF versions. Based on your comments from the draft, I spent some time looking at available data to examine Leach's status and trends on the islands, and came up with a rough population estimate. I hope this provides what you need.

Please let me know if you have any questions.
