Importance: High

Hi Gerry,

Yes, there is a final NFWF Report, which I attach. And I would concur with Jaime: yes, I would say it is citable.

Keep in mind that it is a Final Programmatic Report not a Technical Report.

What is included in the Final Report is consistent with the full MS, which was submitted to Ecosphere the following month (April 2018).

The Report provides a summary and a selection of our key results, as you will see.

So, there is no reason to refer to or reference the Interim Report, since the Final Report supersedes that.

Let me know if you have any other questions. And I can fill you in on the MS status, once I have news.

Best,

Nadav

Also, Russ provided the NFWF interim report for referencing in the Final EIS of the house mouse eradication. Is this a citable document, in your opinion? Is there a final report to NFWF for this work, or was submitted paper the product?

Thanks.

Gerry

Hi Nadav,
Were the results from this NFWF report incorporated into the ms you submitted to Ecosphere?

Thanks.
