All,

Given that we will have to brief Stacy/Polly & Jody/Paul on the EIS project schedules (we have 4 total) and Patricia has to enter everything into the clunky DOI NEPA tracking database by this Friday's DOI deadline (5/18), we really need your targeted completion dates for milestones and other requested info **by COB today** or tomorrow morning at the latest.

Thanks.

Mark

Hi,

I talked to Mark and we are not going to submit the EIS Project Plan at this point. We do however need to upload a project schedule into the NEPA Database. For SBSP at Eden Landing and M&T Long Term we can submit the consultant's schedule and I can pull the target completion dates from their schedules. For the Farallon Mouse Eradication Project we can use an excel spreadsheet but on that one we will have to have a signed ROD by April 27, 2019. Gerry - please use the steps listed in the Farallons tab as a base for your schedule.
