

EIS Project Plan
M&T/Llano Seco Fish Screen Facility Long-Term Protection Project

Reason for Action: The U.S. Fish and Wildlife Service in coordination with the California Department of Fish and Wildlife are preparing a joint environmental impact statement/environmental impact report (EIS/EIR) for the proposed M&T/Llano Seco Fish Screen Facility Long-Term Protection Project. The EIS/EIR will present and analyze a range of alternatives that would provide a reliable long-term water supply for agricultural lands and the wildlife refuges while protecting endangered species and their habitats in the Sacramento River.

Project Goal: To develop an EIS associated with the Project.

Roles and Responsibilities: Table 1 provides a list of EIS Project Team members. The bulleted items below outline each member's responsibilities.

Table 1. EIS Project Team

Roles	FWS Personnel	Contact Information
Senior Executive Service Member	Paul Souza Regional Director, Pacific Southwest Region	916-414-6469 paul_souza@fws.gov
