I participated in the Refuge Chiefs VTC this morning - the Farallon proposal was very well received and unanimously supported. John Klavitter did a great job setting the stage for the approval in his description of the project and the review team's endorsement. Of course, ultimately, it was the strength of your proposal that made the difference. Congratulations!

Best news I've had all year, along with getting the EIS done!
Thanks to everyone for all of their assistance and support getting us to where we are now. These funds (\$1 million) won't arrive to us for a few years but it will be the seed money we need to go and find the rest.
