Subject: Fwd: Final Environmental Impact Statement: South Farallon Islands Invasive House Mouse Eradication Project

Hi Everyone,

FYI - Farallon Islands NWR has completed their final EIS for their mouse eradication project.

Best, John

Subject: Final Environmental Impact Statement: South Farallon Islands Invasive House Mouse Eradication Project

To: <sfbaynwrc@fws.gov>

The U.S. Fish and Wildlife Service is pleased to announce the availability of the Final Environmental Impact Statement for the South Farallon Islands Invasive House Mouse Eradication Project. The final EIS describes the alternatives identified to eradicate house mice from the South Farallon Islands and eliminate their negative impacts to the ecosystem on these islands. The Service will issue a Record of Decision on the alternatives presented in the EIS no sooner than 30 days after the publication of the final EIS.

The final EIS can be obtained electronically at <http://www.regulations.gov> (Docket No. FWSR8-

NWRS-2013-0036). Copies of the document have also been placed in the San Francisco

Public Library and at the San Francisco Bay National Wildlife Refuge Complex Headquarters.

Thank you for your continued interest in the management of the Farallon Islands National

Wildlife Refuge. If you have any questions, please contact Gerry McChesney, Refuge Manager,

by phone at 510-792-0222, ext. 222 or via email at gerry_mcchesney@fws.gov.
