---

Dear Janet,

I spoke with Jen Boyce and she said that I should send to you the estimated costs for 2010 for the Farallones house mice removal. This is our best guess for what we would spend this year to put the project on track for implementation in 2011.

I still need to get some internal review on these numbers, so I may send a version with revised numbers to you (no later than end of day tomorrow- Friday). But I wanted to get this to you sooner than later to see if you are OK with the format. I recognize there is not much detail here, but it builds on the existing proposal that lays out the steps so I felt it redundant to go into more detail here, plus I don't have time to put together much more than this by your Monday deadline.

Gerry, this is our estimate for IC costs and does not include any USFWS costs. Not sure what the refuges requirements are for this.

Please let me know if this is what you are looking for,

Thanks,  
Brad
