Subject: Farallon hazing - OWCN grant proposal

Hello!

As you may remember, the Oiled Wildlife Care Network recently accepted our pre-proposal for funding (~\$45,000) the Farallon bird hazing study to be conducted this December.

We are in need of funding from OWCN to conduct the trial, and I'm trying to gather the necessary information for the full proposal, which is due in July.

As co-investigators, I will be sending you a draft of the proposal to comment on by July 9th, and we will need your comments back by July 19th.

In order to put together a draft for you, I'll first need three pieces of information from you this week:

1. Your CV - Bios – please use the attached form
2. A letter of support as a collaborating agency
3. Suggestions on whom we should list as 3 external objective reviewers (they should have some expertise in the field, and be supportive)

Please let me know if you can get these to me by Friday morning. Thanks for your assistance in this vitally important aspect of this project!
