---

Thank you Dan.

Please note that the 15% contingency (\$141,000) is not part of the Luckenbach funding managed by the Trustees. It is discussed as possible funding if the correct conditions are met in the documentation from NPFC, but has not yet been granted to the TC.

Gerry, do you have time to discuss this info in the context of the budget you submitted to the TC in November? I prefer to discuss this today as we have a call with the TC tomorrow.

*"Island Conservation is the world's most effective organization  
in terms of species saved from extinction per dollar spent."*

- Michael Soule, Cofounder, the Society for Conservation Biology

### **Luckenbach Oil Spill Restoration Plan Funding for Farallones Mouse Eradication Project**

- ~\$980,000 total in fund
- -\$790,980 allocated thru FY2012 (FY12 pending)

~\$189,353 remaining,

- plus 15% contingency ( ~ \$141,000) =
- ~ \$330,000 left in LTC fund
  
- Roughly \$100,000 additional needed now for mitigation planning, gull hazing trial additional planning and trials.
- Additional funds will be needed for implementation.

### **Other Grant amounts solicited/received by IC/PRBO for the Farallon Mouse Project:**

**\$149,500 - NFWF to Island Conservation for Environmental Compliance (first application for EA)**

**\$150,000 - California Coastal Conservancy to Island Conservation for planning**

**\$40,000 - Commonwealth to Island Conservation for planning**

**\$150,000 - NFWF to Island Conservation (and PRBO) for Communications and Environmental Monitoring for EIS**

**\$20,000 - Campbell Foundation to Island Conservation for Environmental Monitoring**

**\$80,000 - Packard Foundation to PRBO for analyses of monitoring data, Gull Population Viability analysis and mouse-owl-petrel impact modeling**

**\$589,500 - TOTAL**

Hi Dan,

Can you give me a breakdown of grants to date and what they target for this project.
