---

Hi all

Here are my comments on the draft we got on August 1<sup>st</sup>. Whew, that one whopper of a document, even without Chapter 2 – or the appendices for that matter!. Gerry FYI, I also sent IC a detailed summary that I put together on landbird numbers November-Jan for the species specific info in Chapter 4 earlier this week.

Russ

PS. As another friendly FYI, I sent the draft ASSP modeling report to you guys over 2 months ago and have received no direct feedback on it. As this will be mentioned heavily in the draft and likely included as an appendix, it would be great to get some direct review on that. Thanks

**Subject:** Draft EIS

Hi Gerry and Russ,

In order to keep this ball rolling we decided to send you the current EIS draft without chapter 2, since we are still finalizing that chapter. Chapters 1, 3, 4, and 5 have been reviewed and revised based on feedback from IC staff. There are a few comments that are either placeholders for information that is forthcoming or that requires your input. I hope to have chapter 2 available for

your review on August 20 . With this in mind we are still hoping to schedule a meeting for the week of August 20<sup>th</sup> or September 3<sup>rd</sup> . I am in the process of identifying specific dates that I think will work with all of our schedules and plan to send a list of dates to you shortly.

While reviewing the draft EIS please provide:

1. Specific track changes that reflect the language you would like in the document
2. Add any pertinent information that you feel is relevant
3. Incorporate any tables, graphs, or figures that you think are necessary
4. Provide specific comments for clarity or discussion

If you have any questions, comments, or concerns please feel free to contact me at any time.  
Thank you,

Gabrielle
