Gerry,

May 4 at 10 am PST works well for me. Brad or Gregg, would you be available for a call to discuss project budget then?

Thanks,
Stacey

Stacey,

I ran out of time to call you back today. I'll try you tomorrow. My schedule the first week of May is a little up in the air right now. I'm trying to get to the Farallones next week with first week of May as a backup. Let's shoot for May 4 at 10:00 AM and if I can't make it I'll let you know. Does that work for others?

Gerry

Subject SOW and eradication budget

Hi Gerry,

Please see attached for a copy of the 2010 SOW with the budget included. I apologize that this was missing from the original SOW I sent.

Also attached is a copy of the implementation and post-eradication monitoring (e.g. Year 0-2) budget which has been revised cost from the original 2006 Lukenbach budget. In this budget I have inserted partner expenses as detailed in the original budget. Based on these revisions there is a \$~250k expense deficit for the project. I would recommend that we schedule a time to conference once Brad is back in the office to discuss options for closing the expense deficit. Brad returns back to the office at the end of April. Perhaps we can schedule a time to talk during the first week of May? I am pretty open all week expect for Monday May 3. Please suggest a time and date that might work for you.

Thanks,

Stacey

Hi Gerry,

Both of the dates work for me for a conference call. Brad, does the 19th or 20th fit your schedule?

Gerry, I have also cc'd Amy Carter, our Communications Manager, to see if she would be available to join this call on the 19th or 20th.

Thanks for arranging this,

Stacey

Thanks, Stacey. I'll review and get back to you soon. In the meantime, I'm wondering if you and Brad would be available for a conference call with me, Winnie Chan (Refuge Planner), and Doug Cordell (Refuge Public Affairs) to discuss formulation of the communications plan. The soonest we could all be available is either the afternoon of April 19 or anytime April 20. Would one of those days work?

Gerry

Subject
SEFI mouse eradicaion SOW

Hi Gerry,

Following up from our last phone conversation, attached is the SOW and itemized budget for the 2010 planned eradication work. I provided some justification for why the costs are high, which mostly relates to delays with the EA. Please review the language and let me know if you have any suggested edits or changes.

Additionally attached is a copy of the Cooperative Agreement that was drafted between FWS and IC for the San Nicolas project. This may provide a good template for arranging fund transfer to Island Conservation. Please let me know how I can assist moving this agreement forward with your Refuge.

I believe our next step should be to complete the 2010 budget for submission to Lukenbach. At some point you, Brad, and I should coordinate (perhaps also with PRBO?) to discuss additional costs in the 2010 budget, as well as conversations about the full implementation budget. I have likewise drafted a revised implementation budget to account for project changes and cost increase since the initial 2006 budget draft. When you are ready, I can send this to you and we can discuss further.

Would you be available to talk sometime before Thursday next week? I am headed into the field for 3 weeks therefore the time I would be available in early May. Please suggest a date/ that would be most convenient for you.

Thanks,

Stacey
