Subject: SEFI IHA and B.O.
Date: 11/07/2012 01:56 PM

All:

The lengthy signed B.O. here is certainly well researched.

Pages 64-66 (Incidental Take Statement *Reasonable and Prudent Measures and Terms and Conditions*) will require our careful review and incorporation into the Trial Plan protocols, along with the IHA.

I'm unaware of what " *daily abalone research*" the document refers to being done by us (top of page 65). Where did that come from? Jan?

Dan
