Hi Zack,

I am the Environmental Compliance Specialist with Island Conservation; I recently returned to work after being on maternity leave for several months and am in the process of picking up all of the pieces. I was informed that you were collating all of the Scoping comments from the recent comment period for the mouse EIS. Since we need these comments to help drive the alternatives workshop later this month, I would like to request that you send me the collated comments by Monday July 11<sup>th</sup>. This will give us enough time to read through and ensure that all of the comments will be addressed and considered during the workshop. Please let me know if this will work for you. Thank you.

Regards,

Gabrielle
