SUBJECT: KILLING OF MICE IN THE FARALLONES

QUESTION: I WOULD LIKE TO RECORD MY OBJECTION TO THE PLANNED POISONING OF MICE ON THE FARALLONE ISLAND RESERVE. EVEN TO YOU IT MUST BE FAINTLY CLEAR THAT YOU CANNOT POISON ONE FORM OF LIFE WITHOUT IT IMPACTING OTHER FORMS IN THE IMMEDIATE AREA. ESPECIALLY IN WHAT IS SUPPOSED TO BE A PROTECTED ENVIRONMENT, THIS KIND OF CONDUCT SHOULD BE UNTHINKABLE LET ALONE UNLAWFUL. WITH ALL YOUR (I'M ASSUMING YOU HAVE OTHER RESOURCES) RESOURCES THERE MUST BE SOMEONE THAT HAS A MORE ENVIRONMENTALLY RESPONSIBLE APPROACH. WHAT DO THESE MICE EAT? MAYBE YOU COULD CUT BACK THEIR FOOD SOURCE? POSSIBLY SOME SORT OF PREDATOR? IF YOU WOULD LIKE MORE IDEAS I WILL BE HAPPY TO SHARE THEM WITH YOU. TO MY WAY OF THINKING KILLING IS THE LAST RESORT OF THE UNINSPIRED AND UNMOTIVATED. BRITT CLEMM
