---

Hi Gerry:

Thanks for the support letter for the OWCN proposal. It's almost perfect as is, but because USGS has said they would not use their UAVs for hazing, and we are not sure yet if we can use other people's UAVs for hazing, it might be best to stress the our (suggested verbage: ) **"Use of UAVs will primarily be for visually monitoring where seabirds and MM are, and that the hazing will be done by a variety of methods. The effectiveness of using some remotely operated vehicles for actual hazing of gulls may also be tested."**

Could you make the suggested changes and re=email your letter to Rachel and I by Friday (tomorrow)? Thanks!

Dan

Dan,

Sorry to take so long. Here is letter. Let me know if you need anything else.

Subject: NEED OWCN proposal comments ASAP (today?)

Hi Gerry:

To get our OWCN proposal together for submittal deadline, Rachel and I will need two things from you, **today if possible**:

1. Your edits/suggestions on the OWCN narrative, including your CV in the form sent prior
2. A letter of support for the project (Jonathan wrote and signed one for the pre-proposal, but it was very short and could be embellished a little)

The poster was well received at the SCB: Russ and Nadav were there too.

Dan

**Subject:** Re: SCB PosterDG.pptx

Please send a copy of the final. Thanks.

Gerry

Subject  
SCB PosterDG.pptx

Gerry:

Here is a draft of the Farallon SCB poster for next week for your review. Melissa is sharing it with Russ later today. We can discuss it tomorrow if you want, but if you see anything that needs changing right away, let me know. The poster is meant to educate the scientific public broadly about severity of the problem, the solution, and the benefits of eradication.

You'll notice the HOW was left out, as this will likely be the Q&A aspect.
