---

Dear Carolyn and Janet,

Sorry for the slow response getting back to you. Since I received your comments, I've been working with Island Conservation staff to come up with a revised full project budget for the Farallon mouse eradication project, in a more detailed format like the original 2006 budget. We went over a draft of it yesterday and need to incorporate a few more changes. Once I get IC's changes, I will forward a 2010 budget request along with the revised long-term budget for the Council's review and discussion. My goal is to have that to you by Tuesday, June 22. If the Council has had time to review and discuss the revised budget, we would be available sometime during the week of June 28 for a conference call that would include myself and IC staff.

Gerry
