Hi Gerry,

I am so sorry this has gotten lost in my shuffle. I appreciate you staying on top of this peer review stuff. I read your document and don't believe it is one of the types of peer review documents that we have to submit in the twice yearly report. (The twice yearly report really focuses on influential or highly influential science papers, which tends to be something that has \$\$ consequences. Pure scientific biological reporting doesn't fit the criteria.) I will include it in my report as a peer review document from region 8 refuges but I don't think it will require any further reporting. I will let you know if it does. Again, thank you.

I am going to send out the winter call for peer review documents now....

Happy Thanksgiving,
Michelle

Michelle,

Attached is a Peer Review Plan for a study we commissioned as a decision support tool for an EIS we are working on. I prepared way back when we first made contact but never sent it to you. I assume I send the plan to you; I didn't see any instructions on submittal.

The report is now complete. I will submit the peer reviews once our Final EIS is completed.

Let me know if there's something else I should do to submit the peer review plan.

Gerry

Michelle,

I left you a vm yesterday but connection was bad so not sure you'd be able to understand me. Please give me a call when you get a chance. Our phone system here is wonky, so if you have trouble getting through to my office phone, call my cell.

Thanks.

Gerry

Hi Gerry

Thanks for your call and email. I am out most of this week. I can definitely call you sometime next week to catch up about your publication.

Have a good week,
Michelle

Hi Michelle,

I just left you a voicemail as well. I would like to have a brief chat with you about a report I plan to get peer reviewed and need your concurrence on the plan. Please give me a call when you get a chance.

Thanks.
