---

why have one fire drill when you can have 2?!

I got this from Kathy Lueders at SpaceX and at least appreciated her checking to confirm. Have we given FAA a date that would suggest we can get through the section 7 process by the end of this month? let me know  
thanks

*Finally, we were told by our FAA counterparts that they are stepping up to giving us a green light for a end of October launch date. Any feedback on whether that lines up with your plans would be very helpful to convey to the FAA, or if you have any obstacles, that would be good to know.*
